

MISSION STATEMENT

Our mission:

To produce top-quality shirts and trousers that are at the core of a complete uniform program.

We are proud to manufacture the finest shirts and trousers for all forms of public service departments – police, firefighters, EMS, transportation personnel, correctional officers, security guards, and highway patrol officers are just a few. Every item is made right here in the U.S.A. at one of our two Tennessee plants. You will find our fabric quality and construction design to be just what you are looking for in a uniform program.

Southeastern Shirt also offers custom design and manufacturing to meet your uniform needs besides our wide range of in-stock items. Every product is backed by our excellent customer service to insure easy and accurate ordering, fast delivery, and continued service.

Southeastern Shirt was founded over a quarter century ago and as a hands-on CEO who can be found on the production floor as well as in the office, I take pride in our garments being “Made in the U.S.A.”!

Serving all areas of the United States from Hawaii to Maine, we are ready to handle your order! Whether it's a custom piece for your uniform program or something off the shelf, we look forward to helping you find just the right product for your uniform needs. When image counts, Southeastern Shirt delivers. Thank you for your business.
